Six Months Ended 30 June 2024

Secure Long-Term Income Delivering a Growing Dividend

# Agenda

- 1 Key Highlights**
- 2 CEO: First Impressions of New Role**
- 3 Financial Results**
- 4 Rental Growth**
- 5 Disciplined Approach to Asset Management, Development and Investment**
- 6 Investment Case and Outlook**
- 7 Appendices**

# Key Highlights

# Key Highlights

## Secure and Long Income Continues to Drive a Growing Dividend

### Financial Highlights

- Another year of rental growth with like for like income up £1.8.m in six months (HY23: +£2.2m). This equates to annual like for like of +2.4% (HY23: 3.0%) which is down marginally due to lower inflation encouraging improved tone on open market value rental growth +2.1% (HY23: +1.8%)
- Fully covered dividend increased by 3% to 3.45p per share (HY23: 3.35p)
- PHP is set to deliver a 28<sup>th</sup> year of dividend growth

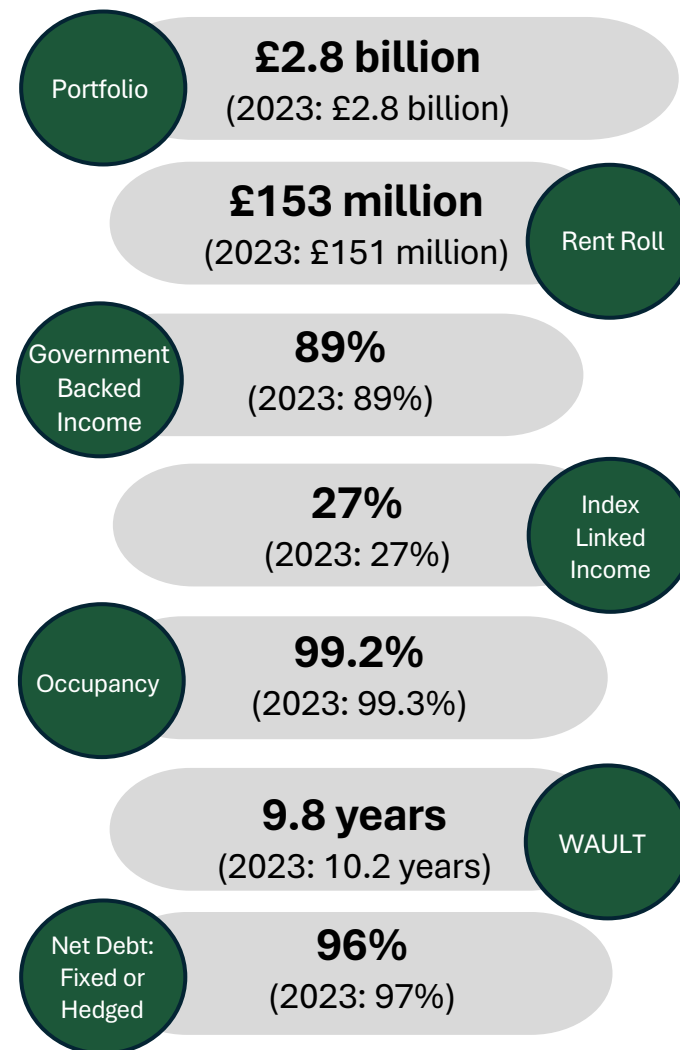

### Other Highlights

- Political charge: New government set to increase investment in primary and community health care
- More patients than ever are waiting for treatment and Wes Streering is committed to widening the role of primary care to meet the population's healthcare needs

### Strong Metrics

- 99.2% Occupancy
- 89% of our income paid for by the UK and Irish governments
- 3.3% cost of debt and £308m of firepower from existing facilities
- Low cost ratio with further cost savings following actions taken in the period and fully annualised £1m benefit in FY25

## 28<sup>th</sup> Year of Consecutive Dividend Growth

# 28th Year of Consecutive Growth and Sector Outperformance

## Strong relative returns and disciplined approach to investment<sup>4</sup>

Year	Total Property Returns %			Revaluation Movement (£m)	
	PHP	Assura	MSCI UK	PHP	Assura
<b>H1 2024</b>	<b>1.4%</b>	n/a	2.2%	<b>(£40.0m)</b>	n/a
<b>2023</b>	<b>3.5%</b>	0.4%	(0.5%)	<b>(£53.0m)</b>	(£130.5)
<b>2022</b>	<b>2.8%</b>	(2.6%)	(10.4%)	<b>(£61.5m)</b>	(£215.2)
<b>2021</b>	<b>9.5%</b>	7.1%	20.0%	<b>£110.5m</b>	£69.7m

<b>2017</b>	<b>10.8%</b>	9.7%	11.0%	<b>£64.5m</b>	£79.1m
				<b>£157.8m</b>	<b>(£122.8m)</b>

1. CAGR: 1997 to 2024
2. Based on Q1 to Q3 2024 dividend of 1.725p paid and declared per share annualised and is illustrative only
3. Share price is the closing mid-market price on 23 July 2024
4. Total property returns for PHP and MSCI UK relate to the years ended 31 December; Assura relate to the years ended 31 March

# CEO: First Impressions of New Role

# CEO: First Impressions of New Role

## My Background

- Worked in the listed property sector for a long time
- What attracted me to PHP

## First 50 Days

- Good transition period and seamless handover
- Strong team with experience in the right areas
- Portfolio quality-Site visits to key assets across the country in UK and Ireland

## Growth Drivers

- Political landscape is favourable - significant increase in investment into primary health
- Social and demographic - population growth will drive high demand
- Housebuilding - 1.5m new homes will create value creating opportunities for new modern primary care centres

## The Future

- Identifying strategies to drive further income growth
- Finding ways to deliver shareholder value in a winning sector
- Capital Markets Day – 16th October 2024

Mark Davies  
CEO  
Primary Health Properties PLC  
Appointed April 2024

# Political Change: A Boost for PHP

## Significant Policy Changes

- New Labour government will be good for PHP
- Wes Streeting committed to diverting £billions from hospitals to GP's and community health
- Labour have a good understanding of what it will take to fix NHS and are boosting the proportion of budget spend on primary care
- National Health Service to be managed as the Neighbourhood Health Service
- More people can get care closer to home in their community
- Continuing the shift of services out of hospitals and into the community
- Focus is on prevention to reduce pressures on the NHS

## What will Labour's Reform to Primary Care look like

- Improve GP access and bringing back the family doctor
- Joined - up community health and social care services
- Further expand the role of community pharmacy
- Free-up GP appointments by boosting mental health support
- Create a Neighbourhood Workforce

**PHP is well placed to facilitate and benefit from these objectives, creating new and modernised facilities to deliver services in the community, with huge social impact**

# Other Government Policies Driving Growth Opportunities

## Housing Policy:

- “Beds and Meds” - new homes create demand for GP’s and new medical centres
- Population growth including 1.5m new homes could create demand for up to 300 new primary health centres
- At the time planning is being considered for new homes, an assessment is made on impact and demand for healthcare facilities
- Housebuilders and local authorities may be required to make a financial contribution to the new medical centre e.g. South Kilburn
- Already seeing the trend:

2023 schemes	No. of Homes	Housebuilders	New Medical Centre Developer
South Kilburn	+200	Countryside	PHP
Spilsby	+600	Gleeson	PHP

## Pharmacy Policy:

- Community pharmacy critical to Labour’s mission of reforming the NHS
- Growing demand for pharmaceutical products and services including chronic disease and long-term medications
- Regulatory changes have allowed pharmacies to take on expanded roles including vaccines and minor ailments service
- Interaction into Primary Care offers opportunity for local collaboration and expansion

# Financial Results

## H1 2024 Key Financial Highlights

Two Rivers Medical Centre

The logo for Two Rivers Medical Centre features a stylized wave graphic in shades of green and blue to the right of the text.

1. LFL & Annualised

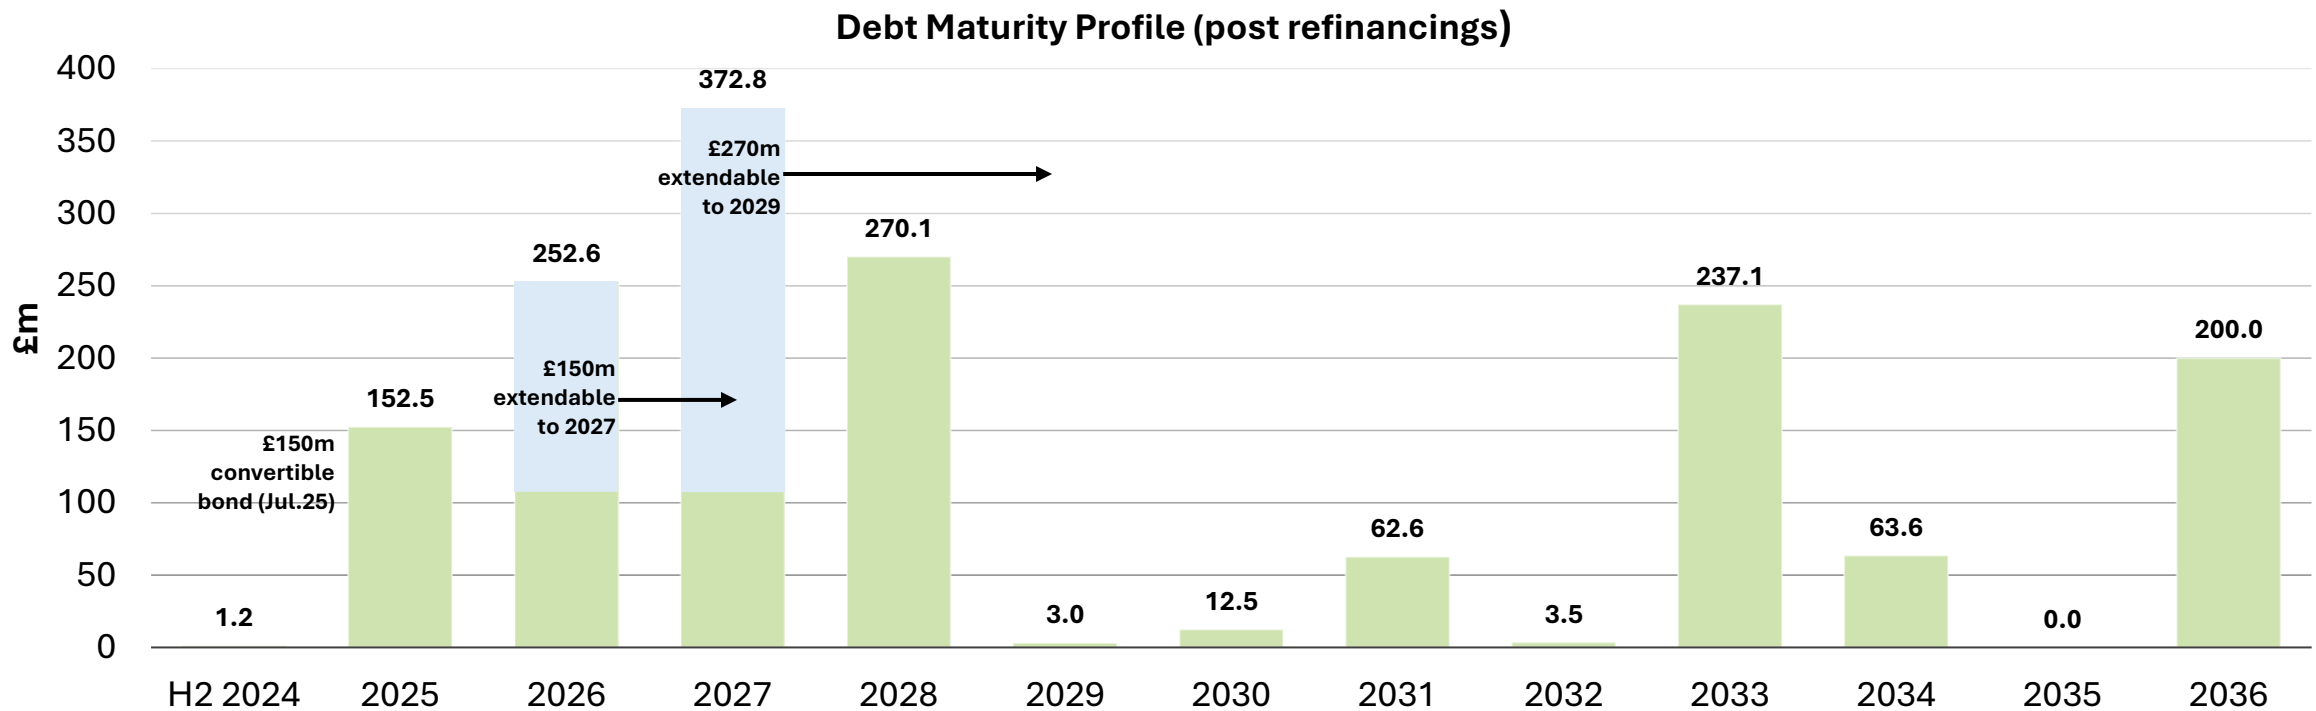

# Valuation: Yield Expansion Offset by Rental Growth

Performance	30 June 2024	31 December 2023	Change
Adjusted net tangible assets	£1,403m	£1,443m	-2.8%
Adjusted net tangible asset value per share	105.0p	108.0p	-2.8%
Net initial yield	5.18%	5.05%	+13bps
LFL ERV growth	1.7%	1.4% (H1 2023)	+30bps
Annualised LFL ERV Growth	3.4%	2.8%	+60 bps

# Delivering Financial Management

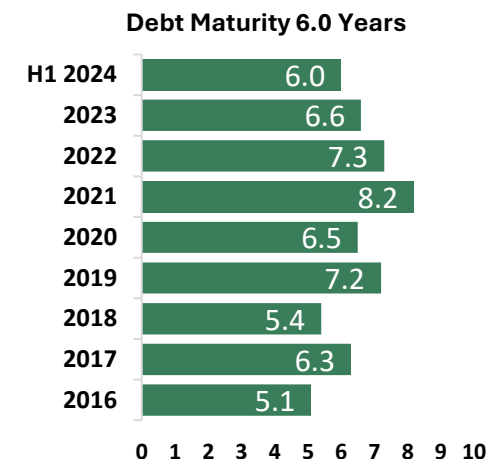

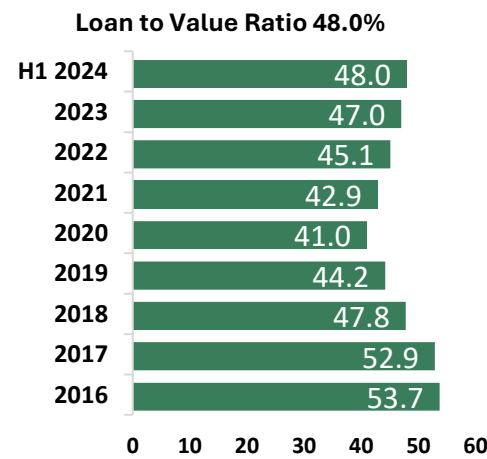

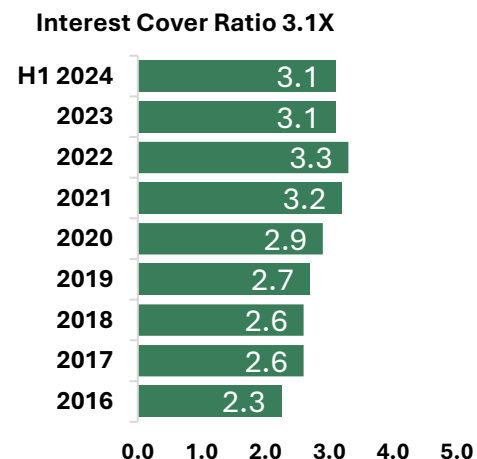

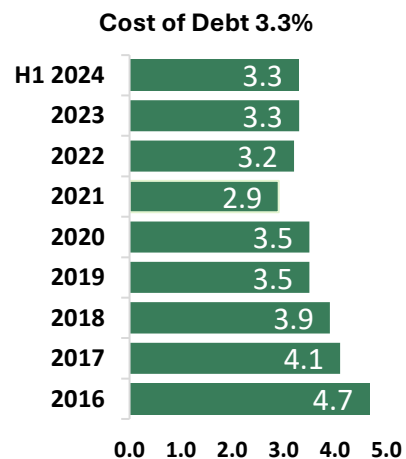

- £308m undrawn headroom after capital commitments available to deal with future refinancings
- £170m term and RCF facility with Barclays, credit committee approved, to refinance £70m variable bond maturing in Dec.25 with c. 90 bps saving in margin
- Advanced discussions to refinance £100m Lloyds RCF for a further three years with options to extend at the first and second anniversary of new facility

Key: Green = existing maturities and Blue = extendable facilities

# Debt Summary

- Total debt facilities of **£1.64bn** (91% secured/9% unsecured)
- Net debt drawn **£1.32bn**
- **£308m** undrawn headroom after capital commitments and post period end transactions
- **96%** of net debt fixed or capped with broad and diverse range of lending partners
- Group LTV **48.0%** (2023: 47.0%)
- Long weighted average debt maturity of **6.0** years
- Average cost of debt **3.3%** (2023: 3.3%)
- Average cost of debt forecast to rise to **3.5%** following completion of various refinancing initiatives in 2025
- Loan to value covenant headroom of **£1.0bn or 38%** decline in values across Group and 8.0% implied NIY
- Net debt / EBITDA **9.3x** (2023: 9.4x)

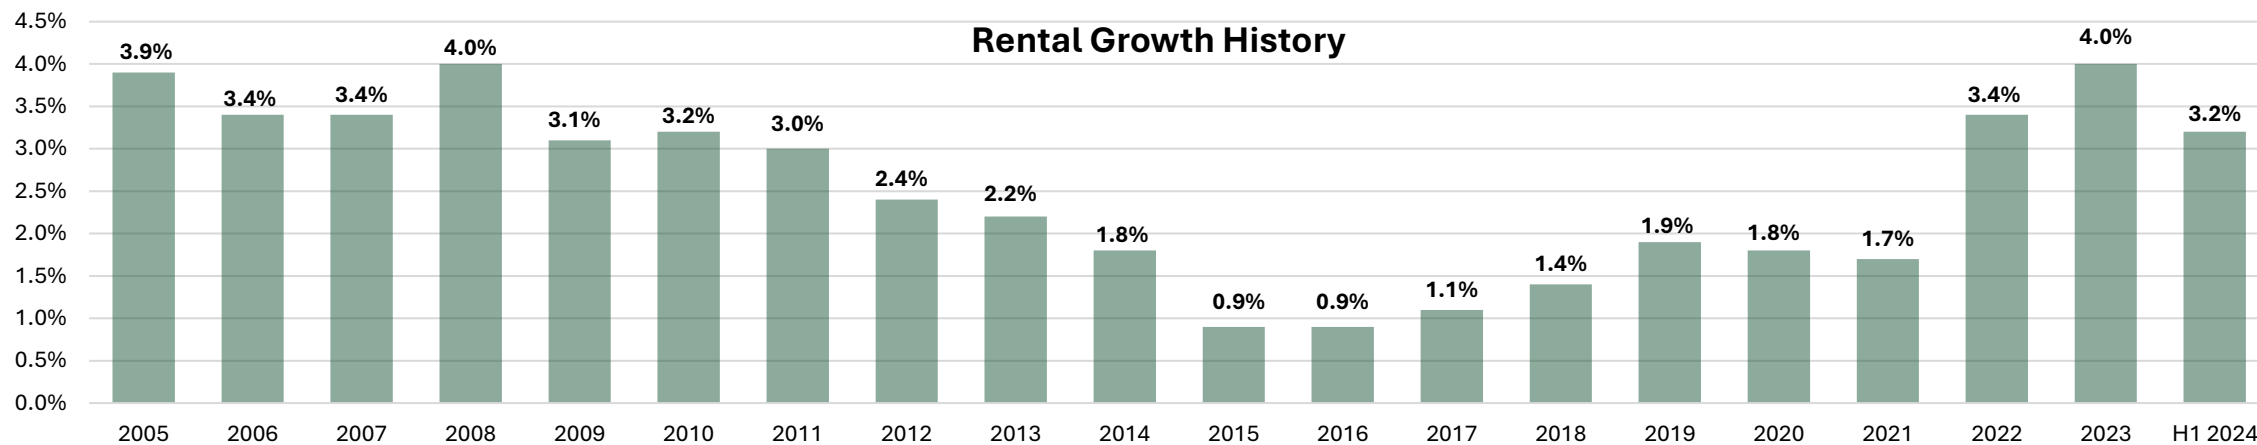

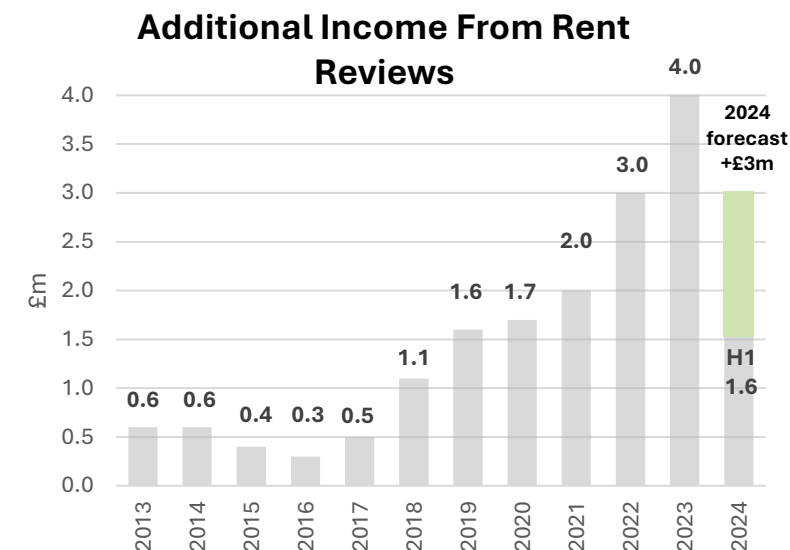

# Continued Improvement in Open Market Rental Growth

# Rent Reviews – Improving Open Market Rental Growth Outlook

- Effectively upward only rent roll in UK
- Rents in Ireland linked to Irish CPI
- **£1.6m** additional rent in H1 from rent reviews **7.8%** increase over previous passing rent
- Total weighted average rental growth: **3.2%** p.a.
- 68% reviewed to open market (ave. **2.1%** p.a.)
- 27% index linked (ave. **4.8%** p.a.)
- 5% on fixed uplift (ave. **2.8%** p.a.)
- Ireland – 100% index linked (ave. **4.6%** p.a.)
- Most reviews settled relate to 2021 – 2022
- 25% of UK indexed reviews include caps and collars, typically between 12% and 6% over a three-year review cycle

# Robust Rent Review Results

## Drivers of rental growth

- Typically 3-yearly review cycle
- Building cost inflation
- Completion of historic rent reviews
- Increased development activity
- Replacement cost
- Building regulations and specification creep
- Reducing the NHS carbon footprint
- **£2.1m or 4.8%** uplift expected on 302 open market value reviews triggered to date with ERV of £45.8m.
- Further 287 reviews still to be actioned

Six Months to 30 June 2024	Open market rent reviews completed		Number of outstanding reviews (current rent)	
	No	%	No	£m
Reviews relating to calendar years:				
<=2019	7	2.5	51	7.3
2020	6	3.3	42	6.6
2021	16	2.0	90	12.9
2022	16	3.3	154	22.1
2023	5	2.6	158	24.4
2024	-	-	94	13.4

Nil increases	24	0.0		
Total open market reviews	<b>74</b>	<b>2.1</b>		

## Outstanding Reviews Focused by Region

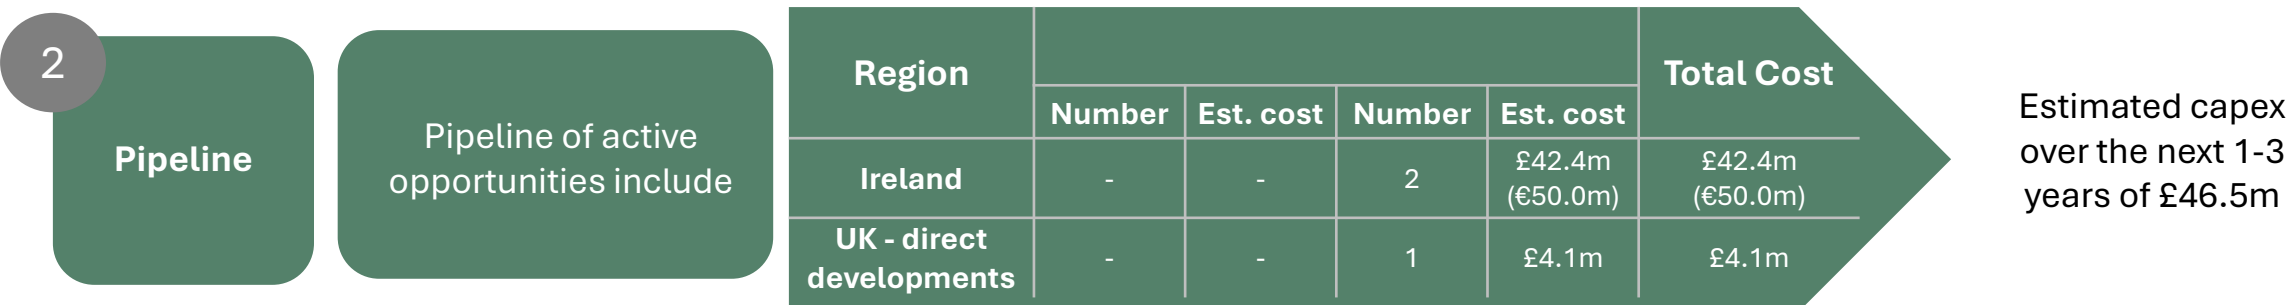

# Disciplined Approach to Asset Management, Development and Investment

# Asset Management and Development Pipeline

Total funding requirement of c. £79m over the next three years to fund a mix of future asset management projects, direct and forward funded developments

Further medium-term pipeline opportunities being monitored

# PHP's First NZC-Led Asset Management Project

## Swan Lane Medical Centre, Norfolk

### NZC future proofed medical centre with 21-year lease regear and £57k of additional rent

- 20+ year old building in Long Stratton, Norfolk refurbished and extended
- 8 GP's and 13 healthcare professionals serving 12,000 patients
- Services provided include minor operations, mental health, pharmacists and physio
- Adjoining site acquired to build extension for 7 new clinical rooms plus refurbish existing building
- Capacity increased by 20% to future proof the building to cope with 1,800 new homes being built locally
- Air source heat pumps replace oil fed system along with solar PV and EV charging
- BREEAM Very good and EPC improved to A
- NZC for all future operational use

# Development and Investment Activity

- **Short-cycle and de-risked development activity** adding high quality assets, capturing attractive development margins and supporting ESG commitments
- **Direct developments:** Advanced pipeline of one further project being progressed and rents being renegotiated
- **Irish forward funded developments:** Two projects in pipeline with a total cost of £42m/c. €50m

# Investment Case And Outlook

# Compelling Investment Case for PHP

- Stable and growing income
- Strong tenant profile with c90% Government backed with long term leases and high occupancy
- PHP has a market leading position in an attractive real estate sector where demand for space is set to grow
- There are clear demand drivers in the UK and Ireland with a growing and ageing population
- Political landscape has changed to our advantage with £billions to be invested in a reformed **N**eighbourhood **H**ealth **S**ervice
- Primary care is an essential service and there are high barriers to entry
- Urgent need to rebuild healthcare infrastructure with primary and community health playing a lead role with far too much existing real estate becoming obsolete and unfit for purpose
- Proven track record and earnings and dividend growth

# Closing Remarks

- Continued focus on earnings and dividend growth
- Strong sustainable rental growth driven by improving open market value outlook
- Strong control on costs with industry leading EPRA cost ratios
- Strong market fundamentals driven by long-term demographic and macro trends
- Supply side impetus from new Labour Government's commitment to NHS and strategy to expand primary care
- Great platform and experienced team focused on delivering shareholder value

# The Future of Primary Care in the UK

## Case Study: Eastbourne

- Failing GP practices unable to cope with increasing patient demand which has affected service provision, patient care, outcomes and staff retention
- Merged into one super-practice operating as a single Primary Care Network
- Existing premises deemed inadequate for the current population which is expected to grow with major local population growth
- Nationally and locally the NHS is implementing a strategic move of transferring services away from hospital settings to modern purpose-built spaces

### New Primary Care Centre

- Flexible building to meet future demand and changing requirements
- The building achieved a BREEAM Excellent rating
- Helps with staff recruitment and retention

### The Future

Let for 25 years to allow patients and the wider Primary Care Network to access a wide range of health and care services including:

- General practice (physical, telephone and video)
- Minor operations and procedures
- Mental health assessments and practitioners
- Training for GP's, nurses and paramedics
- Walk-in centre
- Clinics for various issues i.e. asthma, diabetes, cryotherapy
- Non-NHS services (medicals, insurance, vaccinations)
- Physiotherapy
- Occupational therapy
- Social prescribing
- Care co-ordination
- Clinical pharmacy
- Family planning

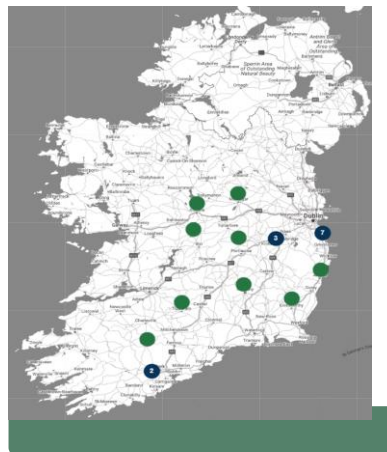

**3 separate GP practices merged into one super-practice, under new management, in purpose-built accommodation**

# Ireland Opportunity

- **Growing and ageing population:** 5 million people growing to 6 million by 2050
- **Government support:** programme to modernise healthcare in Ireland and establish a network of 200 purpose-built Primary Care Centres with healthcare budgets and demand for services under pressure
- **PHP one of the largest investors in Ireland:** portfolio comprises 21 assets, valued at £244m (€288m) with a large average lot size of £12m (€14m)
- **Strategic acquisition of PHP Axis** gives permanent presence in Ireland to source new opportunities
- **Target:** grow portfolio to around **€500m or c.15%** of total Group portfolio
- **Pipeline £42m (c. €50m)** across two projects
- **Irish rent roll** €17.0m with 79% let directly to Health Service Executive or government agencies with long leases (WAULT: 20 years). All rents linked to Irish CPI (+2.2% June 2024) capped at 25% over 5 years

\* PHP portfolio valuation yield 30 June 2024 (used as proxy for market purchases)

\*\* Sourced from Chatham Financial – 17 July 2024

\*\*\* Company incremental margin on debt facilities

# The Future of Primary Care in Ireland

## Case Study: Enhanced Community Care Facility, Ballincollig

- Ireland’s first Enhanced Community Care Facility and part of a €240m initiative which aims to increase community healthcare services and reduce pressure on hospitals
- The asset will provide a variety of services primarily to support elderly care and those suffering from a variety of chronic diseases including cardio, respiratory and endocrine issues
- Single let to the HSE on a 25-year lease benefitting from five yearly, annually compounded, Irish CPI indexed rent reviews
- Strong ESG credentials with a Building Energy Rating of A3 equivalent to Near Zero Emission Building status and a pending BREEAM rating of “Very Good”

### Property Price

Property Price	€29.64m
Tenant	Health Service Executive (100%)
WAULT	25 years
Rent Reviews	5-yearly Irish CPI (compounded)
Size	6,000 sqm or 64,500 sq.ft.
Completion	December 2023

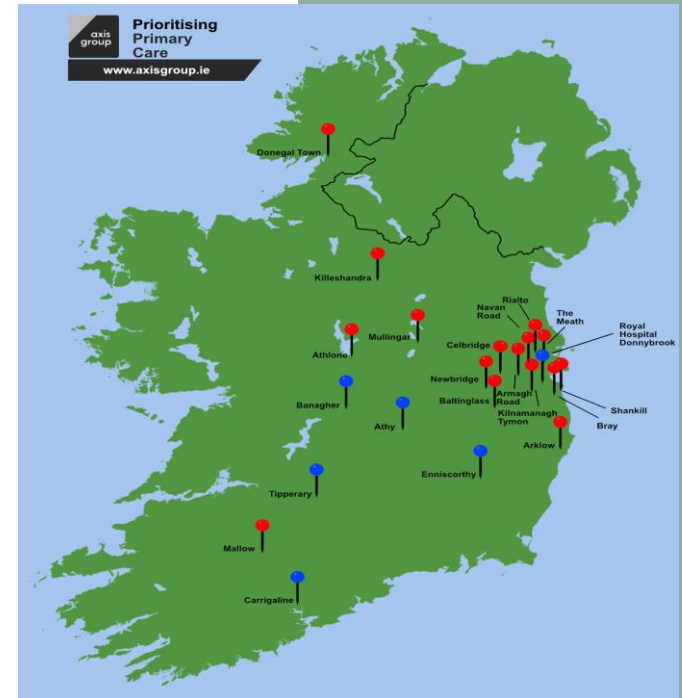

# Strategic Acquisition of PHP AXIS Technical Services and Long-Term Development Agreement

## PHP Axis Technical Services Limited

- Provides a permanent presence on the ground in Ireland, further strengthening our position as we seek out new investment, development and asset management opportunities
- Property manager looking after 30 commercial properties located across Ireland focused on healthcare, pharmaceuticals and distribution; providing facilities management and fit-out services
- Strong, long-term partner with all their clients, including the Health Service Executive (“HSE”)
- Extensive healthcare relationships through understanding of issues, compliance and reporting requirements
- 27 people providing national coverage, mobile technicians, helpdesk, digitalised maintenance management systems and extensive reliable subcontractor network

## Long-Term Development Pipeline Agreement

- Leading developer of modern Primary Care Centres in Ireland with a strong track-record of developing Primary Care Centres in Ireland
- Option to acquire development pipeline over the next 5 years with an estimated value of £42m (€50m)
- Important source of further medium-term opportunities using extensive knowledge and market relationships in Ireland

# UK: Positive Long-Term Demographic, Macro and Political Trends

- **National Health Service (NHS)** is a public body **established for over 75 years** and paid for by the UK Government
  - NHS was set up in 1948 to provide everyone in the UK with healthcare, based on their needs and is free of charge. Today it delivers around 87% of all care in the UK with the balance provided by private operators for a population of around 67m and forecast to grow to 78m by 2050
  - NHS annual **budget for 2024/25 is £157 billion** with around **1.4 million employees** and is the 6th largest employer in the world
  - NHS Long Term Plan, published January 2019, focuses on a strategic move to transfer services away from hospital settings to modern primary care premises requiring a continued shift and growth of the primary care workforce requiring access to and need for improved premises
- Primary care delivered via General Practices (“GP”) which acts as the gatekeeper to the NHS
  - GP’s and other medical professionals deliver **c. 1m appointments per day** (70% F2F) in primary care, which has nearly doubled since 2019
  - COVID-19 added to the huge strain on services with a growing backlog of procedures and appointments with **c. 7.6 million patients waiting for treatment at start of 2024**
  - **27% increase in GP workforce since 2019** to meet the rising demand and needs especially from an ageing and growing population with those aged over 70 having on average 5x more appointments than young people
  - **One-third of GP premises** currently considered not fit for purpose and 80% of premises not expected to be fit to meet future expected growth
- UK Government has acknowledged the need for funding of new primary care premises and that private capital must play a role, including specialised primary care property providers such as PHP
- A considerable investment into the sector is required to provide efficient, hygienic and modern facilities that are able to support increasing healthcare demand, expectations, workforce requirements, modern diagnostics and treatment technology
- Increasingly unable to make the necessary investment into infrastructure, the NHS and GP’s now rent high-quality medical facilities. Renting also facilitates changing GP career and practice profiles – retirement and recruitment
- Positive and supportive political backdrop with cross-party support
- **UK government pays its bills on time** with a strong and stable credit rating: Moody’s Aa3 (stable), S&P AA (stable), Fitch AA- (negative outlook)
- Rent and property cost reimbursement mechanism established for over 75 years since the NHS was founded

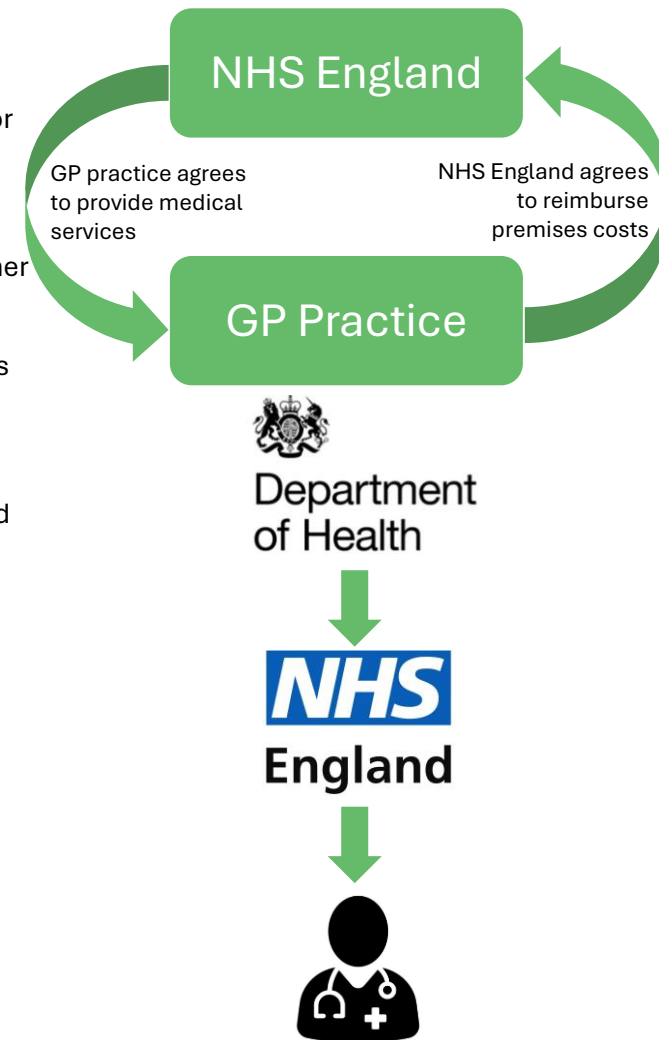

# UK: General Medical Services (GMS) Contract and Premises Costs Reimbursement

## General Medical Services (GMS) Contract

- The system of General Practitioners (GP's) and primary care is the cornerstone of the NHS. They are the first point of contact for anyone with a physical or mental health need and they either treat patients directly or refer them on to the appropriate pathway for diagnosis and treatment within the NHS
- Since the NHS was formed in 1948, the vast majority of GP's have remained as independent contractors, typically operating as a partnership of two or more GP's, that work solely under a GMS contract for the NHS and agree to provide primary medical and other related services
- The contract also deals with the remuneration of the GP's for the services provided including mandatory and out of hours services together with income from other NHS sources such as the Quality and Outcomes Framework and payments for providing other enhanced services
- Their income is derived primarily from a formula based on the patient list (size) the practice serves taking into account the age and gender profile
- Personal and Alternative Provider Medical Services contracts, deal with the provision of health services by individual GP's and private companies operating as a GP practice

## Premises Costs Reimbursement

- GMS contract also agrees to reimburse the GP surgery for their premises costs such as rent, business rates, utilities and maintenance. Reimbursement mechanism now established for over 75 years
- Where premises are leased, **rent is reimbursed on the basis of the current market rental (CMR) value** determined by an independent valuation conducted by the **District Valuer**, the specialist property arm of the UK Government who provide independent, impartial, valuation and professional property advice across the entire public sector in the UK
- The CMR is reviewed at each rent review provided for in the respective lease which is typically every three years in primary care

# Ireland: Long-Term Demographic, Macro and Political Trends Supportive

- The population in Ireland, currently 5m, is expected to grow by 20% to c.6m by 2050 with the proportion aged over 65 and 80 expected to grow by 170% and 270% respectively over the same period
- Like most western economies the Irish population has a prevalence of unhealthy behaviours: 63% are overweight, 22% smoke, 76% consume alcohol and only 32% undertake sufficient levels of physical activity with health inequalities more common in lower socio-economic groups and those in more deprived areas
- Over the last decade, the government in Ireland has developed various initiatives to modernise and co-locate the provision of a range of primary care services such as GP's, pharmacies, physiotherapists, dentists, mental health, etc.
  - Their vision is to establish 200 modern Primary Care Centres ("PCCs") throughout Ireland
  - The aim of these facilities is to provide a range of health care services to patients at a single location, ease pressure on the regional hospital system and significantly improve care outcomes for patients
- PCCs are funded in three different ways: government funded developments, public / private partnerships and traditional operational / rental lease agreements with developers and investors such as PHP
- Health Service Executive ("HSE") typically pays in excess of 75% of the rent paid at each PCC with the balance paid by the GP's and a pharmacy operator
- **Irish government pays its bills on time** with a strong and stable credit rating: Moody's Aa3 (stable), S&P AA (stable), Fitch AA- (positive outlook)
- Irish residents, except holders of a Medical Card (children, elderly over 70, and income below €22k p.a.), pay for GP consultations typically €50 to €70 per visit
- Rents (upwards and downwards) linked to Irish CPI which is currently forecast to fall from 5.2% in 2023 to c. 2% p.a. in 2026
- 'Soft' lease breaks around minimum number of GP's and property maintenance obligations – carefully managed by PHP's permanent Irish property and facilities management team PHP Axis

# PHP's Approach to ESG

- **Environmental** - committed to transitioning to net zero carbon (NZC) by 2030 for all operational, development and asset management activities for all of PHP's operational, development and asset management activities
- **Social** - activities result in better patient experiences and have a positive impact on health and wellbeing in our communities
- **Governance** - strong commitment to acting responsibly with integrity and transparency

## Our NZC Targets:

All operational, development and asset management activities to be NZC by 2030 and to help our occupiers achieve NZC by 2040

<b>2023</b>	Operations to be NZC with offsetting: Achieved in 2022 and 2023
<b>2025</b>	All new developments to be NZC: Achieved in 2023
<b>2030</b>	All asset management activities to be NZC and properties to have an EPC of B or better: First two NZC projects underway in 2023
<b>2035</b>	All buildings to achieve an 80% reduction in carbon footprint
<b>2040</b>	All buildings are NZC across the portfolio

# PHP's Approach to ESG

## Development

Net zero project at Croft on site, due to complete in 2024

## Investment

Acquired Ballincollig, Ireland, an all electric enhances community care facility built to nZeb and BER A3

## Asset Management

First all-electric heat pump project on site and embodied carbon NZC projects are underway

## Tenant and Operations

Achieved Toitu Carbon Reduce certification and purchased 100% renewable energy

## Projects

Solar PV roll-out underway. Targeted EPC reassessments generate significant improvements

### Strategy supports a low carbon approach

- Operations and developments (ALREADY NZC), and asset management activities to be NZC by 2030
- Operationally light portfolio, assets with low carbon intensity
- Asset management activity supporting carbon reduction of existing portfolio
- Supporting occupiers to be NZC by 2040, 5 years ahead of NHS's 2045 target

### Strong stewards of underinvested, key social infrastructure assets

- Experience and capital to improve and extend buildings
- Six million patients or 9% of UK population registered at PHP's buildings
- Strong social focus around good health and wellbeing

### Cost effective improvements through lease regears

- Upgrades to building fabric and systems improving energy consuming features and technologies
- LED Lights, heat pumps, insulation, solar, electric vehicle charging
- Estimated cost to bring portfolio to EPC rating of B is £15m to £20m, where economically viable, increasing to £35m to £40m for the whole portfolio and will be incurred as part of planned asset management program

Operations and developments all net zero carbon in 2022, 2023 and H1 2024

Second NZC development at South Kilburn, London

Asset management: first NZC project completed at Long Stratton, Norfolk

Continued improvement in portfolio EPC ratings A-C: 86% (2023: 85%)

# Disclaimer

This document comprises the slides for a presentation in respect of Primary Health Properties PLC (the “**Company**”) and its interim results presentation for the six months ended 30 June 2024 (the “**Presentation**”).

No reliance may be placed for any purposes whatsoever on the information in this Presentation or on its completeness. The Presentation is intended to provide a general overview of the Company’s business and does not purport to deal with all aspects and details regarding the Company. Accordingly, neither the Company nor any of its directors, officers, employees or advisers nor any other person makes any representation or warranty, express or implied, as to, and accordingly no reliance may be placed on, the fairness, accuracy or completeness of the information contained in the Presentation, or the views given or implied. Neither the Company nor any of its directors, officers, employees or advisers nor any other person shall have any liability whatsoever for any errors or omissions or any loss howsoever arising, directly or indirectly, from any use of this information or its contents or otherwise arising in connection therewith.

This Presentation is not a prospectus or prospectus equivalent document and does not constitute, or form part of, nor is it intended to communicate, any offer, invitation or inducement to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities of the Company, nor shall it (or any part of it) or the fact of its distribution, form the basis of, or be relied on in connection with, any contract for any such sale, issue, purchase or subscription. This Presentation does not constitute a recommendation regarding the Company’s securities.

Certain statements in this Presentation regarding the Company are, or may be deemed to be, forward-looking statements (including such words as “believe”, “expect”, “estimate”, “intend”, “anticipate” and words of similar meaning). These forward-looking statements are neither historical facts nor guarantees of future performance. Such statements are based on current expectations and belief and, by their nature, are subject to a number of known and unknown risks, uncertainties and assumptions which may cause the actual results, events, prospects and developments of the Company and its subsidiaries to differ materially from those expressed or implied by the forward-looking statements. Forward-looking statements contained in this Presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. Except as required by applicable law or regulation, neither the Company nor its members, directors, officers, employees, agents or representatives undertakes any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The contents of the Presentation have not been examined or approved by the Financial Conduct Authority (“FCA”) or London Stock Exchange plc (the “London Stock Exchange”), nor is it intended that the Presentation will be so examined or approved. The information and opinions contained in the Presentation are subject to updating, completion, revision, further verification and amendment in any way without liability or notice to any party. The contents of this Presentation have not been independently verified and accordingly, no reliance may be placed for any purpose whatsoever on the information or opinions contained or expressed in the Presentation or on the completeness, accuracy or fairness of such information and opinions. No undertaking, representation or warranty or other assurance, express or implied, is made or given as to the accuracy, completeness or fairness of the information or opinions contained or expressed in the Presentation and save in the case of fraud, no responsibility or liability is accepted by any person for any loss, cost or damage suffered or incurred as a result of the reliance on such information or opinions. In addition, no duty of care or otherwise is owed by any such person to recipients of the Presentation or any other person in relation to the Presentation. The material contained in this Presentation reflects current legislation and the business and financial affairs of the Company, which are subject to change without notice.

This Presentation summarises information contained in the interim results for the six months ended 30 June 2024. No statement in this Presentation is intended to be a profit forecast and no statement in this Presentation should be interpreted to mean that earnings per Company share for current or future financial years would necessarily match or exceed the historical published earnings per Company share. Past share performance cannot be relied on as a guide to future performance.
